

PGA

New Jersey Section

To whom it may concern,

As we all continue to work through a challenging environment to start the season, I wanted to make you aware of some modifications to our Section office operations. Beginning tomorrow, March 17th, the Section office will remain open with a maximum of two employees in the office each day. Other employees will continue to work remotely using technology that will allow them to continue to provide a high level of customer service to our PGA Professionals, as well as our loyal sponsors, Junior Tour members and Foundation supporters alike.

All staff will begin communicating with facilities scheduled to host Section, Junior Golf or Foundation events over the next few months to gather information such as course availability, food & beverage availability, starting time flexibility and/or potential dates to reschedule.

We will continue to monitor updates from the CDC, WHO, State of New Jersey and other local and national agencies and communicate with each of you as more & more relevant information becomes available. We will continue to make decisions as necessary and appreciate everyone's patience through these extraordinary times.

Sincerely,

Chris Bauer
Executive Director | New Jersey PGA
