# Let's beat COVID-19 together.

#### **ABOUT THE VIRUS**

### Coronavirus disease 2019 (COVID-19)

The virus causes a mild to severe respiratory illness. How the virus spreads isn't yet fully known. It's likely spread through:

Droplets of fluid that a person coughs or sneezes into the air Touching a surface with virus on it and then touching your mouth, nose or eves

#### **SYMPTOMS**

Incubation

None to mild

Cough

**Trouble** breathing

Severe respiratory illness and in some cases, death

#### **PREVENTION**

Wash vour hands or use an alcohol based hand sanitizer often.

Avoid touching your eyes, nose and mouth.

Fever

Do **NOT** have contact with people who are sick.

Clean surfaces often with disinfectant.

## WHO IS AT RISK?

If you have been to a location where people have been sick with COVID-19, vou are at risk.

You have been in close contact with a person known to have COVID-19 and you have a fever, cough or difficulty breathing.

You have these symptoms alone, or you have these symptoms and:

- you live in an area with ongoing spread of COVID-19,
- or you have recently traveled from an area with ongoing spread of COVID-19.
